Wendover Air Force Base,
NCO Open Mess
(Building No. 2658)
HABS No. UT-125-CC
Page 1

The Noncommissioned Officers Open Mess Building was built in 1944 of "mobilization, "semi-permanent" type construction. The building is 4,308 square feet and was built at an original cost of \$8,000. The main building is 25 feet-4 inches by 152 feet-2 inches with building offsets measured at 9 feet-10 inches by 57 feet-2 inches. The building has a concrete foundation, wood floors, wood walls, and a shingled roof. The heating source for the building was the coal fired central plant steam radiators. Unlike many of the other buildings, the building was equipped with an ADT Sprinkler System for fire protection. The building appears to be structurally sound.
